DETAILED ACTION

Claims 1, 6-8, 10, 14-19 and 24-28 are currently pending in the instant application. Claims 1, 6 and 14 are rejected. Claims 1, 6, 10, 14, 24 and 27 are objected. Claims 7, 8, 15-19, 25, 26 and 28 are withdrawn from consideration as being for non-elected subject matter.

Response to Amendment and Arguments

Applicants' amendment and arguments filed 26 January 2009 has been considered and entered into the instant application.

Applicants' amendment to the abstract has overcome the objection to the abstract for being too long.

Applicants' amendment to the claims has overcome the 35 USC 112 1st paragraph rejections and the 35 USC 102(b) rejection of the claims.

In regards to the claim objection, as the claims are still rejected under 35 USC 102(b), the objection is maintained as the claims still include withdrawn subject matter.

Election/Restrictions

Applicant's election without traverse of Group I and the further election of the compound (4-pyridinecarboxyaldehyde 4-(oxazole-5-yl)phenylhydrazone) in the reply filed on 8 July 2008 has been previously acknowledged.

As per MPEP 803.02, the examiner will determine whether the entire scope of the claims is patentable. Applicants' elected species is now considered allowable. Therefore, according to MPEP 803.02:

Following election, the Markush-type claim will be examined fully with respect to the elected species and further to the extent necessary to determine patentability. If the Markush-type claim is not allowable **, the provisional election will

be given effect and examination will be limited to the Markush-type claim and claims to the elected species, with claims drawn to species patentably distinct from the elected species held withdrawn from further consideration.
the elected species shall be rejected, and claims to the nonelected species will be held withdrawn from further consideration.

As the elected species has been found allowable, the examiner has expanded the search and examination to the following compound:

Claims 1, 6, 10, 14, 24 and 27 have been examined to the extent that they are readable on the elected embodiment, the elected species and the additional species indicated above. Since the elected embodiment is not allowable, subject matter not embraced by the elected embodiment is therefore withdrawn from further consideration. 7, 8, 15-19, 25, 26 and 28 are therefore withdrawn from consideration as being for non-elected subject matter. It has been determined that the entire scope claimed is not patentable.

Claim Objections

Claims 1, 6, 10, 14, 24 and 27 are objected to as containing non-elected subject matter. Claims 1, 6, 10, 14, 24 and 27 presented drawn solely to the elected embodiment would overcome this objection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Hewitt, J. T. which discloses the compound benzaldehydeparachlorophenylhydrazone on page 873, line 3.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
